MEMORANDUM FOR : Assistant Director for Scientific Intelligence
SUBJECT : Publication of "Electronic Aspects of Soviet Air Defense"

25X1A9a

1. In accord with our discussion and your memorandum of 23 May, the study of the "Electronic Aspects of the Soviet Air Defense System" prepared by [REDACTED] has been reviewed by my Security Staff. I was pleased to find that with a very limited degree of editing, which does not detract from the estimate value, the paper can proceed to publication within the TALANT/COMINT control systems.

25X1A9a

2. I feel I should mention that the weightiest argument for this decision was [REDACTED] point that the study has been prepared for review by persons already privy to both systems. With this in mind, I hope this present conclusion may be of value in the preparation of future studies involving Project data.

RICHARD M. BISSELL, Jr.
Special Assistant to the Director
for Planning and Development
